PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in Java, Spring Boot, React.js, Node.js, and AWS cloud services. Skilled in building scalable RESTful APIs, responsive web applications, SaaS platforms, and production-ready deployments. Strong focus on clean architecture, performance optimization, CI/CD pipelines, and Agile delivery. Proven ability to take projects from design through deployment with measurable impact.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+)

Frontend: React.js, Next.js, Redux, React Query, HTML5, CSS3, Bootstrap, Tailwind CSS, styled-components, Recharts

Backend: Spring Boot, Spring Security, Node.js, Express.js, RESTful APIs, JWT Authentication, Microservices

Databases: MySQL, MongoDB, PostgreSQL (Supabase), Firebase, AWS RDS

Cloud & DevOps: AWS (EC2, RDS, S3, IAM), Docker, Jenkins, Vercel, Netlify, CI/CD, Git/GitHub, GitHub Actions

Testing & Tools: Postman, Selenium (Automation), JUnit, ESLint, Vite, Jira (Agile/Kanban), Notion

EXPERIENCE

Full Stack Developer Intern | **TechSpark Solutions Pvt. Ltd.** — Remote Oct 2025 – Mar 2026

- Developed and maintained RESTful APIs using Spring Boot; reduced API response latency by 20% through query optimization and caching strategies.
- Built modular React.js + Redux frontend components, improving UI reusability across 5+ feature modules and reducing component duplication.
- Integrated AWS S3 for file/image storage and configured IAM roles for secure access control; contributed to Jenkins CI/CD pipelines, reducing deployment time by 30%.
- Participated in Agile sprints, daily standups, and code reviews; wrote JUnit and Postman tests achieving 85%+ coverage on core API endpoints.

Full Stack Developer Intern | **Oasis Infobyte** — Delhi (Remote) Jan 2025 – Feb 2025

- Built responsive interfaces with React.js and developed RESTful APIs using Node.js and Express.js with MongoDB/MySQL integration.
- Maintained version control via Git/GitHub, supported task tracking, and assisted in full-stack project deployment and testing activities.

PROJECTS

ScrapSavvy — Waste Management Platform | AWS Cloud Deployed

[Backend GitHub](#) | [Frontend GitHub](#) | [Live Demo](#)

- Built a full-stack waste management system with Spring Boot REST APIs on AWS EC2, AWS RDS (MySQL) for data persistence, and AWS S3 for image storage; React.js + Bootstrap frontend deployed on Netlify with 99.9% uptime.
- Implemented JWT authentication with role-based access control (RBAC) securing all endpoints; automated CI/CD deployments via GitHub Actions.
- **Tech:** Java, Spring Boot, React.js, MySQL, AWS EC2/RDS/S3, JWT, Bootstrap, GitHub Actions, Netlify.

Elevora AI — AI-Powered SaaS & Dental Clinic Platform

[Elevora AI GitHub](#) | [Dental SaaS GitHub](#)

- Developed an AI-integrated SaaS platform with dynamic dashboards, real-time data visualizations, multi-tier subscription management, and role-based access control.
- Extended the platform to include dental clinic management: patient records, appointment scheduling, billing, and clinical workflow automation using Spring Boot and Spring Security.
- **Tech:** React.js, Spring Boot, Spring Security, Node.js, MongoDB, LLM API Integration, Vercel.

The Wild Oasis — Hotel Management System

[GitHub](#) | [Live Demo](#)

- Built a production-grade hotel management platform with real-time booking workflows, cabin management, and an analytics dashboard using React.js, React Query, Recharts, and styled-components.
- Integrated Supabase (PostgreSQL) for database, row-level security (RLS), authentication, and image storage; deployed on Vercel with CI/CD and ~10% performance gain via lazy loading and state caching.
- **Tech:** React.js, React Query, Supabase (PostgreSQL), Recharts, styled-components, Vite, Vercel, Jira.
